OFFICE OF PETITIONS

Applicant: Zhu
Appl. No.: 10/689,147
Filing Date: October 20, 2003
Title: PREDICTION AND CONTROL OF MASS UNBALANCE AND HIGH SPEED
UNIFORMITY
Attorney Docket No.: MC-44 (P50-0107)
Pub. No.: US 2005/0081614 A1
Pub. Date: April 21, 2005

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), filed on October 18, 2005, for the above-identified application.

The request is DISMISSED.

The instant request is that the application be republished because the patent application publication contains the contents of another application submitted in an Information Disclosure Statement.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable."

The request for corrected publication received on October 18, 2005, was not timely filed under 37 CFR 1.221(b).

Due to the nature of the errors in this publication, the office will *sua sponte* publish a corrected patent application publication. The corrected patent application publication will be published in due course, unless the application is allowed and the patent issues before the application is republished.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.
